

FOREST HABITAT MANAGEMENT WORKSHOP

IMPROVING OUR FORESTS TO BENEFIT BIRDS & OTHER WILDLIFE

SATURDAY, JUNE 30, 2018

Forest Habitat Management Workshop
Saturday, June 30, 2018
Indian River lakes Conservancy
Redwood Hill Preserve-trailside classroom
44010 Stine Road, Redwood NY, 13679

9:00 – 12:00 p.m.

With short woods walk after. Bring a bagged lunch.

New York's St Lawrence Valley provides an incredible mix of habitats essential to the survival of at-risk bird species such as American Woodcock, Golden-winged Warbler, Brown Thrasher, and many others.

Individual and family forest owners are encouraged to attend to learn about the habitat needs of forest birds, improving habitat for American Woodcock, Golden-winged Warbler and other songbirds and game species, as well as federal conservation incentives available to help you manage your forest sustainably.

Expert Presentations From: Audubon New York, Indian River Lakes Conservancy, NYS DEC and more.

Free to attend. Please RSVP by June 29, 2018.
