

Indian River Lakes CONSERVANCY

PO BOX 27 REDWOOD, NY 13679 (315) 482-4757 www.IndianRiverLakes.org info@indianriverlakes.org

The Indian River Lakes Conservancy will host its first-ever Water Quality Conference on June 8, 2018. This conference was developed to inform a broad collaboration of agencies, municipalities, associations, and community partners on water quality issues and land use practices throughout the Indian River Watershed.

IRLC is committed to improving and protecting river and lake water quality in the Indian River region by providing educational opportunities for the community that will empower collaborative partnerships as we begin to lay the foundation for the development of the Indian River Watershed Management Plan.

This year, several nationally recognized and state level experts will address current issues in the Indian River Watershed. This is the perfect opportunity get inspired, learn something new, and connect with water quality experts and local colleagues to improve our understanding of water quality.

Come out and enjoy your day with us at the Redwood Hill Preserve Trailside Learning Center.

We look forward to seeing you!

A schedule of events is located on the backside. Lunch will be provided.

Registration is \$30 per person.

Please register by **Friday, June 1st**. Please note, registration is limited to the first 50 reservations.
